**Merchant Setup information for Paladin Data Corporation (VAR) using triPOS Cloud~PaladinPOS, 4.5.1~1.0**

| | |
|---|---|
| Merchant Account ID with Worldpay (MID) | —————— |
| Customer Tracking ID | *NA* |
| Owner Name | |
| DBA Name | |
| Legal Name | |
| Address | |
| Email | |
| Phone | |
| StoreCardID | |
| StoreCard Password | |
| Enabled Credit Cards | *Visa, MasterCard, Discover, JCB & UnionPay: Yes American Express: {Demo.AmexType* |
| Additional Payment Methods | *PIN Debit: Yes, EBT: No, Food Stamps: No* |
| PASS Tokenization | *Yes* |

To set up this account up for processing, you will need to retrieve their Account ID, Acceptor ID, Account Token and Default Terminal ID which can be found in our iQ portal.

One TerminalID (TID) can be used per merchant location. If the merchant wants separate batch settlements by workstation, you can assign a unique TerminalID for each.

Use the above credentials if your merchant will be processing Gift/Storecard with Worldpay.

## Worldpay Integrated Payments Customer Care and Support

We can assist your merchants with such things as the types of cards they accept, transaction issues, deposits, and statements.  We will introduce them to their merchant portal to access, view and understand transactions.
